

I am writing in opposition to expanding LPFM to allow priority over current FM translator service. I live in a rural area, with only a few stations, and thoroughly enjoy listening to KLOVE which is a national Christian radio station. I am able to listen to KLOVE because it is on an FM translator. There is no local radio station playing music like KLOVE. KLOVE music is encouraging, positive, and wholesome, and very nice to listen to as I drive the kids to school! Please do not let LPFM force out national or regional services which are heard on FM translators, especially in rural areas where there are limited local radio stations.

Thank you.
